Campaigning for a **CHEMICAL FREE SHIRE** Bee Alert

Silently billions of bees are dying off and our entire food chain is in danger. Bees don't just make honey, they are a giant humble work force pollinating 90% of the plants we grow.

Multiple scientific studies blame one group of toxic pesticides for their rapid demise and some bee populations are recovering in countries where these products have been banned. But powerful chemical companies are lobbying hard to keep selling these poisons.

WE HAVE NO TIME TO LOSE. THIS IS NOT JUST ABOUT SAVING BEES, THIS IS ABOUT SURVIVAL. LETS BUILD A GIANT GLOBAL BUZZ TO OUTLAW THESE KILLER CHEMICALS AND SAVE OUR BEES AND OUR FOOD.
